| 17:30 | Wrap-up and closing | Open discourse space | | | |

**Remarks:**

The above selection of key topics and proposed main sessions is based on reflections of challenges on the European agenda. Other specialized themes (and continuous issues like literacy, inclusion, equal participation etc.) are important but should be covered in side sessions like Workshops (10) or Flashes and other formats. This 1st program outline for EuroDIG 2014 tries its best to consider the impressing number of more than 90 proposals (received until end of 2013) and the vivid debate on key issues and topical priorities during the Open Planning meeting end of January in Berlin.

This 1st Berlin program outline is open for review and discussion by the community and is subject of the next planning meeting inline with the upcoming IGF Consultations on 19 February in Geneva. The next consolidated version will reflect some more inputs.

Thanks for your comments!

Leipzig / Lisbon, February 2014

As of 18 Feb 2014
